Flightless Birds

Most of the birds that you come across fly, but not all birds can. Flightless birds cannot fly because of their big size and weak wings.

Match these flightless birds to their correct description by writing correct letter in the boxes.

1.

Kiwi

Herbs and Spices

Herbs and spices add flavour and taste to food. Herbs are used for their medicinal value and flavour, whereas spices are used just for flavour and taste.

Identify the herbs and spices given below and match them with their correct names by writing correct letter in the box.

Do You Know?
Spices should always be kept in a cool and dry place as the heat results in the reduction of their quality flavour and even colour.
